Allowable Subject Matter

Claims 1, 2, 4-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1, 2, and 4-20 are considered allowable because the present invention comprises a apparatus having a feedback path from an equalizer to a tracking unit for producing tracked values of the indirect variables by the tracking unit. The closes prior art, Li et al. (cited in Office Action mailed August 04, 2004) shows a similar circuit including an apparatus for producing indirect variables representing an impulse response matrix. However, Li et al. fails to teach a feedback path from an equalizer to a tracking unit for producing tracked values of the indirect variables by the tracking unit. This distinct feature has been included in independent claims 1

Art Unit: 2637

and 12 rendering them allowable. Claims 2, 4-11 and 13-20 are dependent on allowed claims and are thereby allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
